■ What is seamless or “poured” flooring?

These floors are hand crafted by using a high solids epoxy base coat with customer selected vinyl chips or ceramic quartz broadcasted into the base. Several top coats of polyurethane or clear epoxy are then applied.

■ Why choose seamless flooring?

- Longevity. Floors can easily last over 30 years & be in great condition.
- Low maintenance. A seamless floor is easily cleaned & requires no waxing.*
- No dirt, stain & bacteria collecting seams or grout joints.
- Won't rip or gouge like linoleum. Won't chip or bust like ceramic tile.
- Vinyl Chip System hides dirt.
- Excellent chemical resistance.
- Orange peel texture with Vinyl Chip System provides traction & superb wear resistance.
- Commercial Quartz System can provide a non-skid surface where traction is essential.
- High gloss finish with abrasion resistance.
- Floors can be refinished after several years to give them that “like new” appearance.
- Can be installed over uneven or wavy substrates like concrete or steel.
- No constant & costly maintenance program which can be required by vinyl composition tile (VCT) & hardwood floors.
- Microbial control.
- UV resistant & color stability.
- Color of an existing seamless flooring can be changed at anytime by simply applying a new floor right over the top.

* See our Floor Care & Maintenance Guide.

■ What type of surface can seamless flooring be applied?

Almost any surface is suitable for seamless flooring. Concrete, wood, tile, hardwood, steel, linoleum; just to name a few. Go vertical with our wall system. Over old countertops with our *Counterseal* system.

■ Pricing.

With the pervious said, seamless flooring is very economical. Seamless flooring can be installed at a competitive price compared to any covering. Contact us to receive a pricing page outlining our systems & base pricing.

■ Other features.

- Over 100 vinyl chip colors to choose & blend. No two floors are alike.
- Twenty commercial quartz colors to choose & blend. Several standard patterns.
- Four standard Garage Floor System colors.
- Custom color samples.*
- Free estimates with onsite inspection.**
- Warranty on labor & materials.

■ Great places for seamless flooring.

- Offices • Lunchrooms • Warehouses
- Bathrooms • Nursing Homes • Kitchens
- Schools • Hospitals • Lobbies • Boats
- Locker Rooms • Labs • Kennels • Shops
- Laundries • Churches • Utility Rooms...

* Two custom color samples per customer.

** Charges may apply for distant job sites.
